Print instructions

1. Print this page on A4 at **100% scale** — do not select "fit to page", or the card will not be true CR80 size.
2. Best result: print on 300gsm matte card stock, or take this PDF to any print/ID shop and ask for a **CR80 PVC card**.
3. Cut along the dashed outlines, round the corners (3 mm radius), and laminate or sleeve in a standard card holder.
