

From final year to first client.

Legal Buddy (legal-buddy.co.za) is a legal marketplace connecting clients with vetted lawyers across South Africa and Nigeria, with Zara — our AI legal assistant — as the first point of contact. This partnership onboards your final-year law students onto the platform before they graduate, so that the day they are admitted or called to the bar, they have a verified profile, a professional storefront — and a stream of clients.

WHAT YOUR STUDENTS GET

A verified legal profile

Identity and credentials verified through AfrID while still on campus. At admission, they join the marketplace as vetted professionals — not another CV in a pile.

Clients routed by Zara

Zara triages thousands of client questions and routes matters to the right lawyer by speciality and availability. New lawyers get matched with matters that fit their level.

Independent income early

Transparent marketplace rates and direct client relationships — a practice of their own from year one, alongside chambers, clerkships or further study.

HOW THE PARTNERSHIP WORKS

1

MOU with the faculty

Simple agreement; your faculty becomes a Legal Buddy talent partner.

2

Final-year onboarding

One session with the graduating class — platform, profiles, ethics.

3

AfrID verification

Students verify identity and academic credentials on campus.

4

Admission / call to bar

Profiles activate once professional admission is confirmed.

5

First clients

Zara routes matters; the faculty receives cohort outcome reports.

Graduates take client matters only after admission/call to bar is confirmed — before that, onboarding covers verification, platform training and professional-conduct standards.

WHAT THE FACULTY GAINS

- ✓ **An employability answer:** "our graduates have clients within weeks of admission."
- ✓ **Legal-tech exposure** — students learn how AI-assisted legal services actually work before entering practice.
- ✓ **Cohort outcome data** for accreditation and rankings: activation and earnings per class.
- ✓ **Zero cost** to the faculty — a talent partnership, not a purchase.

WHAT AGODI PROVIDES

- ✓ **Onboarding sessions** for every final-year cohort, on campus or virtual.
- ✓ **Priority AfrID verification** for partner-faculty students.
- ✓ **Ethics & platform training** aligned with professional-conduct rules.
- ✓ **A named partner contact** at Agodi for the faculty.

FOUNDING COHORT OFFER

We are selecting founding law-faculty partners in Nigeria and South Africa. Your current final-year class onboards free, with priority verification and activation support at admission — in exchange for feedback and a joint case study on graduate outcomes.

ONGOING PARTNERSHIP

- ✓ Every new final-year class onboards each year.
- ✓ Platform fees come from client matters — never from students upfront.
- ✓ Faculty featured as a talent partner on the platform.
- ✓ No exclusivity, no lock-in.
